Great Lakes Christian College

The Knowles Learning Center

The purpose of GLCC's campaign Expanding the Capacity for Learning is to sustain and enhance the ability of faculty, students, and staff to do their best work for the Kingdom of God, as well as to increase the positive impact of the College locally, nationally, and globally. Preparing men and women for leadership and service in the name of Christ has always been and will always be the highest of our educational goals. The need to produce preachers, ministers, and Christian workers continues to be a high priority. To accomplish this, GLCC seeks to provide a well-rounded education for our students by meeting their intellectual, spiritual, and personal needs.

The Knowles Learning Center will expand the capacity and opportunities for research and discovery for our students who desire to learn and teach the Word of God. This new office space has created an atmosphere of learning where professor and student can connect in a professional and yet informal setting. Relocating the Louis M. Detro Memorial Library into the Knowles Learning Center would then give way to redesigning the old library and office wing into needed classrooms and additional cafeteria space which is a priority in order to accommodate the anticipated growth of our student body. The Knowles Learning Center is named after Dr. Lloyd Knowles, professor of history for over 40 years. His heritage of service and commitment to Christ and the College will be recognized through this new facility.

We are asking churches to join us in reaching our goal of $1.5 million for the Knowles Learning Center. Your partnership will expand our capacity to provide quality instruction and mentoring opportunities for students who will make a difference as leaders in the church and world.

Thank you for supporting the ministry of Great Lakes Christian College.

Phase One
Faculty Offices
$600,000

Phase Two
New Library
$900,000

Cash on hand $997,400

Pledges $964,800

$1.5 Million Goal

as of April 1
